MUTEE UR REHMAN

Data Science Student | Aspiring Developer

PERSONAL PROFILE

Currently pursuing a BS in Data Science at Air University, with foundations in programming, data analysis and artificial intelligence. Interested in developing practical software and intelligent solutions, with academic project experience in Java, C++ and Python.

EDUCATION

Bachelor of Science in Data Science

Currently pursuing at Air University

Studying programming, mathematics, statistics, algorithms, artificial intelligence and data analysis.

Intermediate

Aspire College

ACADEMIC PROJECTS

Bank Management System

Java application for managing accounts, deposits, withdrawals and transfers with a graphical interface.

Student Management System

C++ project for organizing student records using object-oriented programming.

AI Search Algorithms

Implemented BFS, DFS and Uniform Cost Search to explore graph problems.

Data Analysis & Visualization

Processed datasets, calculated statistics and created visualizations with Python tools.

Smart Temperature Monitoring Agent

Python agent that checks temperature readings and alerts when a threshold is exceeded.

Smart Vacuum Cleaner Agent

AI fundamentals project that observes room conditions and acts to clean dirty locations.
